

SARTECH ENGINEERING LTD

EPIRB/ELT Test Equipment & Receivers - Price List Issue 27

STOCK No.	PART No.	DESCRIPTION	APPLICATION NOTES	PRICE
SX1204	BT200	Ruggedized Handheld Beacon Tester 406/121.5 MHz.	Manufactured by WS Technologies, Inc. Shock and water resistant for field use. Basic version capable of testing EPIRBs and PLBs - meets and exceeds IMO guidelines. See upgrade option below to add ELT testing. (AIS testing options coming soon).	£3,700.00
SX1205	BT200 add ELT	Upgrade for ELT testing	One-time software licence enables ELT testing functions - including 243MHz homing transmissions and decoding of aviation protocols.	£4,115.00
SX1206	BT200 Limit Tester	Upgrade automates test limits	One-time software licence enables "Limit Tester" function. An additional test report then includes PASS/FAIL for each parameter, based on limits that can be customized by the user.	£580.00
SX1207	RF Cable	Replacement rf input cable for BT200	Allows connection to an external antenna or screened box output. Can also be used for direct connection to beacon output, where available.	£85.00
SX579	FS725	Stanford Research Rubidium Frequency Standard	Provides a highly accurate and stable 10MHz frequency standard input for BT100S or BT100AVS to permit frequency stability measurements to meet C/S T.007	£3,350.00

SARTECH ENGINEERING LTD

SX400	ARG5410 MkII	HAND-HELD SARSAT BEACON TESTER	Test Receiver capable of decoding data from any 406MHz COSPAS-SARSAT beacon. Also checks 121.5MHz homing frequency. Gives frequency and power indication for both 406 & 121.5MHz. Includes antenna, hard carry case, universal mains charger & PC cable.	£2,150.00
SX731	LTS100	BT100 LimitTester Basic Software	Add-on software for BT100 series testers. Produces PASS/FAIL report all parameters, based on COSPAS-SARSAT limits.	£455.00
SX688	LTS200	BT100 LimitTester Advanced Software	Add-on software for BT100 series testers. Allows user to set PASS/FAIL limits for any or all measurements. Principally aimed at beacon production line testing.	£1,450.00
SX1005	VHF Monitor	Portable air band monitor receiver with USB rechargeable battery	Monitor receiver to warn of false alerts. Required for SOLAS shore-based maintenance facilities	£120.00
SX782	FBM200A	High performance 406MHz Monitor Receiver	Very high sensitivity receiver (-125dBm) for monitoring local transmissions within a port, harbour or airport area. Will detect any beacon within line of sight (aircraft up to 200nm). Included software runs as a background task on a PC, logging all transmissions and warning of real or false alerts. USB powered.	£2,597.00
SX783	FBM200B	High performance 406MHz Monitor Receiver with network and GPS	As for FBM200A, but with additional Ethernet interface for network or web connection, and GPS receiver for auto location	£2,855.00
SX403	FC2	PORTABLE SCREENED BOX	Allows testing in operational mode without causing false alerts. Includes 50ohm test lead.	£1,050.00
SX521	FC2/A	PORTABLE SCREENED BOX (ACR VERSION)	Allows testing in operational mode without causing false alerts. Includes 50ohm test lead. Extra through-connector fitted for ACR test fixture.	£1,100.00

SARTECH ENGINEERING LTD

SX537	GPSFIXTURE	GPS TEST FIXTURE	Add-on kit for FC2 box to allow testing of GPS equipped beacons. Comprises active GPS antenna, mounting bracket, 20m cable, amplifier unit, magnet switch and internal passive antenna	£500.00
SX789	FC3	SCREENED BOX WITH GPS	Half height version of FC2 to suit modern beacons. Includes GPS testing facility as standard	£1,350.00
SX684	TSE-100	TSE-100 SCREENED BOX	WS Technologies screened enclosure with viewing window and gloves for manipulation. Includes GPS input for full testing of all beacons, including G-Switch testing of ELTs.	£2,139.00
SX685	130-020-A	GPS CABLE 25FT	Extension cable for external GPS antenna - TSE-100	£100.00
SX686	130-020-B	GPS CABLE 50FT	Extension cable for external GPS antenna - TSE-100	£117.00
SX687	130-020-C	GPS CABLE 75FT	Extension cable for external GPS antenna - TSE-100	£133.00
SX704	130-020-D	GPS CABLE 100FT	Extension cable for external GPS antenna - TSE-100	£150.00
SX705	100-MGAASMA	Pole mount antenna	Pole mount GPS antenna for TSE100	£157.00
SX104	QRT-101	SOFT SCREENED CAGE	Lightweight "soft" version of FC2. Ideal for field use.	£892.50
SX101	PA1	PRINTER ADAPTOR	Suitable for 5410 MKI, allows stored messages to be output to serial printer. Not required for MKII.	£115.00
SX092	R495-5982	MAINS ADAPTOR/BATTERY CHARGER 12V (UNIVERSAL PLUG - UK/EUROPE/USA)	For ARG5410/PA1	£73.80
SX407	F129-240	PORTABLE GRAPHICS PRINTER	Suitable for 5410 and 5420. Serial/parallel input 40/80 column Seiko thermal printer capable of printing graphics data produced by ARG5420 SART Tester. Supplied with mains adaptor/charger to suit UK & Europe.	£415.76
SX409	F177-980	PACK OF 10 THERMAL PAPER ROLLS	For F129-240 Portable Graphics Printer	£52.92
SX401	R195-3012	50 OHM BNC ATTENUATOR, 10dB 0.5W	In-line attenuators to be used to reduce signal level. 30dB minimum recommended for direct connection of beacon output to ARG5410 Mk.I or Mk.II	£33.64
SX134	R395-0453	50 OHM BNC ATTENUATOR, 20dB 0.5W		£35.04
SX135	R426-2016	BNC-BNC LEAD 50 OHM, 1.8M		£15.08
